STP-FP16

SAF T CART t.m.

Saf-T-Cart's new freight pallet is designed for shipping cylinders in a safe and efficient manner. The freight Pallet is designed to strap the cylinders to the back in the normal upright position. The back of the pallet is hinged and with the removal of one bolt will fold down into the flat stacking position for easy freight returns. This unit is ideal for new cylinders, spec gas cylinders, and any cylinders that need to be transported via common carrier. This pallet is light weight and rugged

Height: 42"
Width: 48"
Depth: 39"
Weight: 127lbs
