

402-16

SAFTCART[™]

Designed for rough terrain, the 402-16 is great for all around use. The 402-16 carries large oxygen and acetylene cylinders over everything from smooth plant floors to the rough ground of construction sites thanks to its two 16" pneumatic wheels. Also available with a firewall; just ask for the 402-16FW. Available with a perma clamp on request.
